Dear Hiring Manager,,

I am writing to express my interest in the Java Developer position at Integel Institute Of Technology. As a 2020 graduate with a strong foundation in Java programming and SQL, I am eager to bring my technical skills and enthusiasm to your team.

During my academic journey and projects, I gained hands-on experience in developing Java-based applications, working with relational databases, and debugging code. I worked on many projects one of named "Student Management System" that streamlined data handling using Java, Spring Boot and MySQL. These experiences taught me the importance of writing efficient, testable code and collaborating effectively within a team.

What excites me most about this opportunity is Integel Technology's focus on mentorship and providing growth opportunities for freshers. I am eager to contribute to your projects and further enhance my skills in a supportive environment.

I have attached my resume for your review. I would be grateful for the chance to discuss how my background aligns with the requirements of this role.

I look forward to the opportunity to contribute to Integel Institute Of Technology

Rachelle Beaudry
